## Best Practice No II Army Recruitment Campaign through N.C.C.

Title of the Best Practice : Army Recruitment Campaign through N.C.C.

### Objectives :-

- 1) To develop sense of patriotism, service for the nation, sacrifice and martyrdom among the students.
- 2) To develop physical, intellectual and mental abilities among the students for army.
- 3) To create awareness about the constitutional values among the students.
- 4) To provide training to the students to join army.

### The context:-

- 1) The limited number of students in N.C.C. Unit
- 2) The students pay more attention towards physical fitness than intellectual abilities.
- 3) To show less economic contribution for special training

### The Practice:-

The NCC Department and NCC officers organize a 15 day pre-recruitment training programme for all students. This training is organized by the Battalion one month before the recruitment of the students in college N.C.C. Unit. This training is given to develop physical, intellectual, mental and emotional abilities among the students. The students are made aware of that they are responsible citizens of the country and what their responsibilities are. The students are made conscious towards the duties and abilities of army and police. In the academic year 2021-2022, various programmes beginning with NCC enrolment were organized to create affection and dedication towards nation. Motivational lectures, screening of motivational films and documentaries regular physical exercise, NCC Weapon Training, Drill firing NCC camps were conducted in way of army training and recruitment. Further The NCC Unit also conducts Visit to army center, officers and jawans. The unit also arrange interactive knowledge and experience sharing sessions of ex NCC cadet who served in Army. As part of this practice, all these

programs are organized by college intending to develop the values like conservation of environment, social equality, brotherhood and secularism. The students are provided the opportunities and they are inspired to participate in different types of training programmes organized by the Battalion.

**Evidence of Success:-**

- 1) Many students have been recruited in Indian Army.
- 2) The physical, mental and intellectual development has been observed among the students.
- 3) Along with the awareness of national values, discipline has been also observed the students.

**Problems Encountered and Resources Required :**

1. Under this practice, it was noted that the college has limited seats for NCC. Hence at the time of NCC enrolment students frequently asked for/ demands extra seats. But due to the directions of NCC office, college is unable to allot extra seats. This will create some sort of frustration among the students.
2. In order to conduct this practice in its true sprits, it is required for us the basic amenities such as Changing Room, Rest Room and adequate ground for practice of NCC cadets.
